The Environmental Protection Agency (EPA) announced that grant funding is available for tribal applicants to establish clean diesel projects aimed at reducing emissions from older diesel engines. Diesel engines are extremely efficient, but emit air pollutants such as nitrogen oxides (NOX) and particulate matter (PM). These pollutants are linked to serious health problems including asthma, lung and heart disease, other respiratory ailments, and premature death. This is the first time EPA is offering a separate tribal request for proposals for diesel emission reduction program (DERA) funds, and is in response to feedback from tribal communities. Proposals from tribal applicants must be received by August 12, 2014. http://go.usa.gov/93ex
Press Release: EPA Announces Funding for Tribes to Clean Up Diesel Engines Due August 12: http://go.usa.gov/93ex

More Than 2,400 Tons of Contaminated Soil Removed From O'Neill Tank Site in Great Bend, Kan. http://www.scribd.com/doc/201262906/More-Than-2-400-Tons-of-Contaminated-Soil-Removed-From-O%E2%80%99Neill-Tank-Site-in-Great-Bend-Kan
Core samples are laid out for screening inside a mobile protective containment structure at the West Lake Landfill Site in Bridgeton, Mo., Jan. 16, 2014. The core samples are drilled from depths up to 100 feet and brought to the surface from various locations within an area being surveyed at the Superfund site, then are brought to this structure to be field screened for radiation. Technicians under the oversight of EPA staff use a sodium iodide crystal coupled with a gamma radiation detector to screen the core samples at six-inch intervals. (U.S. EPA photo)

10/24/2014			Please choose the best photos from the burn folder here: H:\REGION SHARE\MULTIMEDIA\Lecompton KS Demo Burn 3_15_14 and make a gallery in Portfolio. I will post a FB gallery and we can then use this post. Thanks! There's already a gallery in Portfolio re: those images. thx

EPA Administrator Gina McCarthy to talk with #farmers and ranchers @NFUDC Convention in Wichita, Kan., March 16, 2015: <http://go.usa.gov/3aeqQ>

.@GinaMcCarthy to meet with #farmers and ranchers in America's #Heartland @NFUDC Convention: <http://go.usa.gov/3aeqQ>

EPA Administrator Gina McCarthy speaks to #farmers and ranchers @NFUDC Convention about the Agency's partnership with the agricultural community to protect water, land and air: <http://go.usa.gov/3aeqQ>

Watch EPA Chief McCarthy as she reflects on our accomplishments, the progress we've made, & what lies ahead: <http://ow.ly/KKYoK> #EPA

See EPA Chief Gina McCarthy talk about our work to finalize the #CleanWater Plan in 2015: <http://ow.ly/KKZ29>

Read what our Administrator said about businesses depending on clean, reliable water to operate: <http://go.usa.gov/3WRz8> #CleanWaterRules

See how our businesses depend on clean, reliable water to operate: <http://go.usa.gov/3WRuZ> #CleanWaterRules

See what percentage of small business owners in the U.S. support our Clean Water Rule: <http://ow.ly/LFqTQ> #CleanWaterRules

Read what 300-plus small businesses wrote to the President about the importance of clean water: <http://ow.ly/LFqHi> #CleanWaterRules

Find out how much water the beverage industry uses annually to produce products valued at \$58 billion: <http://go.usa.gov/3WReB> #CleanWaterRules

Guess how much fresh water manufacturing companies use every year: <http://go.usa.gov/3WReB> #CleanWaterRules

Watch how U.S. beer breweries are standing up for clean water, which is more than 90% of beer: <http://ow.ly/LFmbt> #CleanWaterRules

You can't have healthy fish without clean water: <http://go.usa.gov/3ZgBW> #CleanWaterRules [attach graphic]

Headwater streams are where the healthiest populations of native trout live. Our rule would protect those streams: <http://ow.ly/LLiNH> #CleanWaterRules [attach streams graphic]

About 33 million Americans go fishing each year, spending 554 million days by streams, lakes, and rivers: <http://go.usa.gov/3WHP3> (see p. 8) #CleanWaterRules [attach stream graphic]

More than 8 million kids ages 6-15 go fishing each year. That's why #CleanWaterRules <http://go.usa.gov/3WHP3> (see p. 4)

About 19 million Americans participate in paddling, whether rafting down a river, kayaking in the ocean, stand-up paddling on a lake, or canoeing through a stream: <http://ow.ly/Ls85> #CleanWaterRules --pdf

In 2012, paddling participants made 202 million annual outings in kayaks, rafts, canoes and stand-up paddle boards: <http://ow.ly/Ls85> #CleanWaterRules

Paddlers get on the water for exercise, adventure & as a way to spend time w/family & friends: <http://ow.ly/Ls85> #CleanWaterRules

According to this report, a lot of you paddle and probably want clean water: <http://ow.ly/Ls85> #CleanWaterRules

#CleanWater is vital to all of us. Do you choose clean water? <http://bit.ly/1pMeNry> #CleanWaterRules

What happens upstream doesn't stay upstream. <http://go.usa.gov/22TY> #CleanWaterRules

Right now, 60% of the nation's stream miles aren't clearly protected: <http://go.usa.gov/3BjX9> #CleanWaterRules

Take action to protect your #CleanWater: <http://go.usa.gov/3BjvR>
#CleanWaterRules

Check out five ways streams and #wetlands keep us and our environment healthy:
<http://go.usa.gov/3rSY3> #CleanWaterRules

Do you choose clean water?: <http://bit.ly/1pMeNry> #CleanWaterRules

1 in 3 Americans get their drinking water from streams currently lacking clear protection: <http://go.usa.gov/3Kqae> #CleanWaterRules

Explore this map to see how much your county depends on streams for its drinking water: <http://go.usa.gov/3KqCx> #CleanWaterRules

Clean Water Rule finalized today to #ProtectCleanWater for our health, communities & way of life: <http://ow.ly/Nvp47> #CleanWaterRules (kinetic video)

We all need clean water. New rule better protects our water from source to tap: <http://ow.ly/Nvp47> #CleanWaterRules (kinetic video)

#CleanWaterRules! New rule protects the streams & wetlands that feed into larger waterways: <http://ow.ly/Nvp47> (kinetic video)

Learn more about our Clean Water Rule, finalized today, and what it protects: <http://go.usa.gov/39HXW> #CleanWaterRules

Your local rivers, lakes & beaches are better protected because of Clean Water Rule: <http://go.usa.gov/39HXW> #CleanWaterRules (blog)

Clean Water Rule was just finalized. Get the facts on what it does & how it will #ProtectCleanWater: <http://go.usa.gov/39HXW> #CleanWaterRules

Our Clean Water Rule means streams that 1 in 3 Americans rely on for water are better protected: #CleanWaterRules <http://ow.ly/i/b1e6O>

Great news for 1 in 3 Americans: The streams that feed your tap are now clearly protected. #CleanWaterRules xxxxxxxxxxxxxxxxxxxx (attaching drinking water graphic)

If you live in these areas, your drinking water is now more clearly protected. #CleanWaterRules xxxxxxxxxxxxxxxxxxxx (attaching drinking water graphic)

EPA's Mark Hague, acting Region 7 administrator: New rule will further ensure clean waters are available to everyone in the #Heartland & downstream: <http://go.usa.gov/3X3aR> #CleanWaterRules

Acting EPA regional chief: New rule ensures clean waters for all in #Heartland & downstream: <http://go.usa.gov/3X3aR> #CleanWaterRules

Acting EPA regional chief: New rule ensures clean waters for all in #Heartland & downstream: <http://go.usa.gov/3X3aR> #CleanWaterRules

#CleanWaterRules for local grocery stores. To have safe food to eat, we need clean water. Our new rule better protects our water sources: <http://ow.ly/NPsM0>

Our communities rely on clean water, including your grocery store. Our new rule better protects clean water to keep your community safe and healthy: <http://ow.ly/NPsM0> #CleanWaterRules

Clean water is good for our communities. It means healthier food for grocery stores to sell: <http://ow.ly/NPsM0> #CleanWaterRules

Communities and grocery stores rely on clean water. Our new rule protects both: <http://ow.ly/NPsM0> #CleanWaterRules

Clean water is good for our communities. It means healthier food for grocery stores to sell: <http://ow.ly/NPsM0> #CleanWaterRules

#CleanWaterRules for paddlers. Our new rule protects streams and wetlands to ensure clean rivers and lakes for us to enjoy: <http://ow.ly/NPta8>

The multi-billion dollar recreation industry relies on clean water. Without clean water, we wouldn't be able to enjoy the rivers and lakes we like to visit: <http://ow.ly/NPta8> #CleanWaterRules

Recreation relies on clean water. Without it, we couldn't enjoy the rivers and lakes we visit: <http://ow.ly/NPta8> #CleanWaterRules

Twitter - EPA developed software tool CREAT (#ClimateResilience Evaluation & Awareness Tool) assists water utility operators. <http://go.usa.gov/WP4A>

Facebook - Do you know that green infrastructure promotes the movement of water, instead of allowing it to wash into streets? <http://go.usa.gov/WPjR> OR EPA's National Stormwater Calculator estimates the annual amount of rainwater and frequency of runoff from a specific site anywhere in the United States (including Puerto Rico). Estimates are based on local soil conditions, land cover, and historic rainfall records. <http://go.usa.gov/WPbz>

Twitter - Green infrastructure promotes the natural movement of water, instead of allowing it to wash into streets. <http://go.usa.gov/WPjR> OR EPA's National Stormwater Calculator estimates the frequency of runoff in the United States (including Puerto Rico). <http://go.usa.gov/WPbz>

Facebook - Have you heard of the Design for the Environment program which helps consumers and others identify cleaning and other products that are cost-effective and safer for the environment? <http://go.usa.gov/WPDm>

Twitter - Design for the Environment helps consumers identify cleaning and other products that are safer for the environment. <http://go.usa.gov/WPDm>

The U.S. Environmental Protection Agency has updated the following informational brochures in a continued effort to reach out to communities about lead poisoning prevention.

<http://www2.epa.gov/lead/protect-your-family-lead-your-home-real-estate-disclosure>

The Community Resource Guide is a tool to assist community leaders, local government officials, non-profits, citizens, and businesses in identifying EPA resources that can support community efforts to protect and renew the environment and create a healthier and more sustainable future for their citizens.

Here is the link to the latest Community Resource Guide:
http://www.epa.gov/region7/citizens/pdf/r7_community_resource_guide.pdf.

11/19/13 - Facebook - Need to know how to reduce greenhouse gas emissions? Here are 10 simple steps to show you how. <http://go.usa.gov/WVxA>

Twitter - 10 simple steps to show you how to reduce #greenhousegas emissions.
<http://go.usa.gov/WVxA>

Facebook - Learn how easy it is to protect the environment, fight climate change, and help make the air cleaner at the office. <http://go.usa.gov/WVKT>

Twitter - Learn how easy it is to protect the environment, fight climate change, and help make the air cleaner at the office. <http://go.usa.gov/WVKT>

Facebook - School students – want to know more about science and climate change? Visit A Student's Guide to Global Climate Change where there are interactive expeditions students can explore and how climate change affects the world. <http://go.usa.gov/WVKJ>

School students can learn about science and climate change and how it affects the world - A Student's Guide to Global Climate Change.

Facebook - On the road: Follow these simple, easy steps to cut your emissions, reduce our country's dependence on oil, and save money. <http://go.usa.gov/WV8x>

Twitter - Follow these simple, easy steps to cut your emissions, reduce our country's dependence on oil, and save money. <http://go.usa.gov/WV8x>

11/20/13 - Facebook - Did you know that nationwide the total electricity consumed by electronics while not in use equals the annual output of 12 power plants? <http://go.usa.gov/Wpv5>

Twitter - Nationwide the total electricity consumed by electronics while not in use equals the annual output of 12 power plants. <http://go.usa.gov/Wpv5>

Facebook - Did you know if US households changed their five highest-use bulbs, with ENERGY STAR ones, the change would prevent the greenhouse gas emissions equal to the annual emissions from 10 million cars plus. <http://go.usa.gov/Wp7w>

Twitter - ENERGY STAR bulbs in US households prevents greenhouse gas emissions equal to annual emissions from 10 million cars. <http://go.usa.gov/Wp7w>

Facebook - You can find how to measure the impact of your electricity use here: <http://go.usa.gov/WpFQ>

Find how to measure the impact of your electricity use here: <http://go.usa.gov/WpFQ>

11/22/13 - Generator exhaust is deadly. Every year people die from breathing in carbon monoxide given off by generators. <http://go.usa.gov/WwwA>

Twitter - Generator exhaust is deadly. Every year people die from breathing in #carbonmonoxide given off by generators. <http://go.usa.gov/WwwA>

Facebook - There are ways to reduce risks to health and the environment due to natural disasters. <http://go.usa.gov/WwfQ>

Twitter - There are ways to reduce risks to health and the environment due to natural disasters. <http://go.usa.gov/WwfQ>

Facebook - Ever wondered what the EPA's Enforcement Process is? Here's how it works. <http://go.usa.gov/Wwsm>

Twitter - See how EPA's Enforcement Process works. <http://go.usa.gov/Wwsm>

Facebook- See how water is treated and delivered to your home or business as safe water to drink. Find out what you can do to protect our nation's sources of drinking water. <http://go.usa.gov/WwJd>

Twitter - See how water is treated and delivered to your home or business as #safewater to drink. <http://go.usa.gov/WwJd>

11/25/13 - Facebook - Region 7 Administrator, Karl Brooks, dispels myths about the Spill Prevention Control and Countermeasure (SPCC) Rule - passes on useful news about EPA's approach to the program. <http://go.usa.gov/WG6J>

Twitter - Region 7 Administrator passes on news about EPA's Spill Prevention Control and Countermeasure (SPCC) Rule. <http://go.usa.gov/WG6J>

Facebook - Consumers and businesses - need to find products with the Dfe (Design for the Environment) Label in your area? <http://www.epa.gov/dfe/>

Twitter - Consumers and businesses - find products with the Dfe (Design for the Environment) Label in your area. <http://www.epa.gov/dfe/>

Facebook - Learn what PCBs are and what products or materials they may been in if produced before 1979. <http://go.usa.gov/WGtd>

Twitter - Learn what #PCBs are and what products or materials they may been in if produced before 1979. <http://go.usa.gov/WGtd>

Facebook- EPA Urban Water Small Grants Funding Available. <http://www2.epa.gov/urbanwaters/urban-waters-small-grants>

Twitter- EPA Urban Water Small Grants Funding Available. #federalfunding #grants #urbanwaters #epa <http://www2.epa.gov/urbanwaters/urban-waters-small-grants>

Facebook-National Fish and Wildlife Foundation Five Star and Urban Waters Restoration Grant Funding Available <http://www.nfwf.org/fivestar/Pages/home.aspx>

Twitter-National Fish and Wildlife Foundation Five Star and Urban Waters Restoration Grant Funding Available <http://www.nfwf.org/fivestar/Pages/home.aspx> #federalfunding #grants #epa #FWS #urbanwaters

11/27/13 - Facebook - Can you name the two most common types of biofuels used today? <http://go.usa.gov/WAUx> Did you know that a large number of ethanol and biodiesel facilities are located in Region 7? Learn what the two most common biofuels are, the federal environmental requirements and more <http://go.usa.gov/Z2ZH>

Twitter - The two most common types of biofuels in use today are? <http://go.usa.gov/WAUx> Learn what the two most common biofuels are, the federal environmental requirements and more <http://go.usa.gov/Z2ZH>

Facebook - Ever heard of hydraulic fracturing or fracking? Fracking is the process of stimulating wells to extract natural gas or oil underground. <http://go.usa.gov/WshY>

Twitter - Fracking is the process of stimulating wells to extract natural gas or oil underground. <http://go.usa.gov/WshY>

Facebook & Twitter: Everything you buy affects the Earth, but some choices have a lesser impact. Learn how to shop and protect the planet at the same time. <http://go.usa.gov/WtWx>

Facebook and Twitter: Help reduce your gas mileage by following these tips <http://go.usa.gov/WtDY>

Facebook and Twitter: Climate change and waste; learn how you can help reduce our impact on the planet. <http://go.usa.gov/WtK9>

Facebook- What is the Region 7 Water Program Doing about Climate Change? The Region 7 water program is working with state, local governments, non-governmental organizations, and the regulated community to plan for extreme weather events and adapt water programs. These activities are described in the draft <http://epa.gov/climatechange/Downloads/impacts-adaptation/region-7-plan.pdf>. You can comment on the draft plan until January 3, 2014 at www.regulations.gov (Docket Number EPA-HQ-OA-2013-0568).

Twitter- The Region 7 water program is working with state, local governments, non-governmental organizations, and the regulated community to plan for extreme weather events and adapt water programs. Comment on this draft until January 3, 2014 at www.regulations.gov (Docket Number EPA-HQ-OA-2013-0568).

12/9/13 - Facebook - Educate yourself and find new shopping choices that have a lesser impact on the environment. <http://go.usa.gov/WSAF> Or - Your shopping choices can have an impact on the environment. Educate and empower yourself to make a difference. <http://go.usa.gov/WSAF>

Twitter - Choices you make when you shop can have an impact on the environment. <http://go.usa.gov/WSAF>

Or

Shopping choices - Educate and empower yourself to make a difference. <http://go.usa.gov/WSAF>

Facebook - Do you want to find out information regarding air, water, health and land in your community? Check out: <http://go.usa.gov/WSeJ>

Twitter - Find out information regarding air, water, health and land in your community. <http://go.usa.gov/WSeJ>

Results from the 3rd round of seasonal groundwater sampling at #WestLakeLandfill in #Bridgeton Mo. have been posted. <http://ow.ly/rOf08>

A report of results from the third round of seasonal groundwater sampling at West Lake Landfill in Bridgeton, Mo., has been posted. Web: <http://ow.ly/rOf08>
PDF: <http://go.usa.gov/Zrmw>

FB - Did you know that there are mussels in the Blue River in Kansas City? There are approximately 45 species of mussels found in Kansas; at least 17 different species are in the Blue River. Learn more <http://ow.ly/rIx2h>

TW - Did you know that there are 17 different species of mussels in the Blue River in Kansas City. Learn more <http://ow.ly/rIx2h>

FB/TW - Greening Your Holidays. Check out these EPA tips on how to reduce waste during the holidays. <http://ow.ly/rli8Y>

FB - Did you know that there are grant funds available for the Environmental Workforce Development and Job Training program? Proposals are due February 13, 2014. Find out more <http://go.usa.gov/Z2Yz>

TW - Environmental Workforce Development and Job Training program grant proposals are due February 13, 2014. Find out more <http://go.usa.gov/Z2Yz>

FB/TW - Reduce waste during the holidays and parties. Check here for ways to reduce, reuse and recycle <http://go.usa.gov/Z2y4>

Got a new electronic device? Find out how to #ecycle your old device. <http://go.usa.gov/Z2pT>

Federal Resources for Sustainable Rural Communities is a collaborative publication from the USDA, Department of Housing and Urban Development, Department of Transportation, and Environmental Protection Agency. It focuses on federal resources that promote economic competitiveness, protection of environments, modernization of infrastructure and services to residents. Other key information includes funding and technical assistance opportunities. Examples of rural communities across the country have benefitted from federal resources. <http://go.usa.gov/GBF>

Interested in Federal Resources for Sustainable Rural Communities? Check out this joint publication! <http://go.usa.gov/GBF>
Capitals is a project of the Partnership for Sustainable Communities between EPA, the U.S. Department of Housing and Urban Development, Department of Transportation (DOT) to help state capitals develop an implementable vision of distinctive, environmentally friendly neighborhoods, innovative green building and green infrastructure strategies. Here is a link to EPA's site about Greening America's Capitals: <http://www.epa.gov/dced/greencapitals.htm>
